### **ASX RELEASE**

**For Immediate Release  
Monday, 20 October 2003**

#### **Wattle Dam Exploration Licence 15/718 Granted**

Ramelius is pleased to announce that its Wattle Dam Exploration Licence 15/718 has now been granted.

The Western Australian Department of Industry and Resources granted EL15/718 following a recently negotiated agreement between the Company and the Widji People.

This Wattle Dam tenement, comprising 18 Graticular Blocks in area (approximately 56 sq. kms), forms the core of the Company's regional Spargoville Gold Project. It also encompasses the Company's Hilditch Project Area on which a recently completed geochemical soil sampling program identified three gold and nickel anomalies.

Ramelius has scheduled follow up work on the project for the December 2003 quarter.
