**For Immediate Release**

### **First Gold Production at Mt Magnet (WA)**

The Board of Directors of Australian gold miner Ramelius Resources Limited (ASX:RMS) is pleased to announce that gold production has commenced at its wholly owned Mt Magnet Gold project in Western Australia.

Ramelius continues to make good progress towards full production at Mt Magnet and expects gold production to steadily increase in the coming months. The plant currently has approximately 370,000 tonnes of low grade ore (0.8 g/t) available for milling, which will be blended with higher grade ore to be mined over the coming months.

**300 ounce gold bar from the refurbished gold plant at Mt Magnet (March 2012)**

Mt Magnet is the second gold production centre for Ramelius along with its Wattle Dam gold mine near Kambalda (WA).
