**For Immediate Release**

## **Vivien Gold Project (WA) acquisition**

The Directors of gold producer, Ramelius Resources Limited (ASX:RMS) are pleased to advise that the first payment of \$5 million to Agnew Gold Mining Company for the acquisition of the advanced Vivien gold project in Western Australia, has been completed.

Ramelius is acquiring Vivien from Agnew (a subsidiary of Gold Fields Limited) for \$10 million, had previously paid a \$500,000 deposit, and has until 30 June next year to pay the balance of \$4.5 million.

The Company now has access to the tenements and expects drilling activity at Vivien to commence next week. An initial 17 hole program is planned to increase confidence in the current resource, gather geotechnical information, metallurgical samples and to test for extensions of the high grade lode at depth.

Vivien is a high grade gold project located near Leinster in Western Australia and is close to existing milling infrastructure. Ramelius plans to fast track mining studies so that it can potentially commence development of the project in mid-2014.

The Company will tomorrow dispatch offer documents for its current 1:4 non-renounceable entitlements issue aimed at raising up to ~A\$16.3 million, proceeds of which will primarily be assigned to fast tracking the exploration and development of the Vivien gold project.
