¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes "OR" at the end of the selection and you delete the other options, you can also, if you wish, delete the "OR" at the end of the selection.

See notes 4 and 5 below for further instructions on how to complete this form.

Ramelius Resources Limited

Corporate Governance Statement

Corporate Governance Statement

Part A: Introduction

- A1. The Board of Directors is responsible for the overall corporate governance of Ramelius Resources Ltd (**Ramelius** or the **Company**), including strategic direction, goal setting and monitoring, internal control, risk management and financial reporting. In discharging this responsibility, the Board seeks to take into account the interests of all key stakeholders of the Company, including shareholders, employees, customers and the broader community.
- A2. As a listed entity, Ramelius is required to adhere to the ASX Listing Rules of the Australian Securities Exchange. This includes the requirement to annually report the extent to which the entity has followed the fourth edition of the Corporate Governance Principles and Recommendations published by the ASX Corporate Governance Council (**ASXCGC**). The recommendations are based on eight core principles of best practice for corporate governance which are not intended to be prescriptions to be followed by all ASX listed companies, but rather guidelines designed to produce an outcome that is effective and of high quality and integrity. In considering corporate governance practices, the Board is mindful of the recognition by the ASXCGC that a “*one size fits all*” approach to corporate governance is not required. Instead, the ASXCGC provides suggestions for best practice designed to optimise corporate performance and accountability in the interests of shareholders and the broader economy. A company may consider that a recommendation is inappropriate to its particular circumstances and has flexibility not to adopt it and explain why.
- A3. This statement outlines the corporate governance practices of the Company disclosed under the principles outlined by the ASXCGC, including those that comply with best practice and which unless otherwise disclosed, were in place during the whole of the financial year ended 30 June 2022.

The Company also regularly holds conference calls (available to shareholders and the general public) following the release of periodical reports, with transcripts of the same made available on its website.

Principle 6 – Respect the rights of security holders

The website makes information available to security holders and investors including the following:

Presentations are publicly released and available on the Ramelius website. In addition, the policy states that information is communicated to security holders as follows:

B68. Ramelius provides security holders with the option to receive communications from and to send communications to the Company and its share registry electronically.

Principle 7 – Recognise and manage risk

Risk & Sustainability Committee

B69. Although the Board recognises its ultimate responsibility for risk management and oversight, in discharging its duties, considerable reliance is placed on information provided by management to mitigate material business risks. The Risk & Sustainability Committee oversees the Company's risk management systems, governance and sustainability objectives, environmental and community obligations, ethical standards, codes of conduct and compliance procedures. At all times during the reporting period the Risk & Sustainability Committee consisted of three non-executive Board directors (until 31 May 2022, Messrs Vassie and Bohm, Ms Murdoch and Dr Streltsova (Chair); since, and currently Mr Vassie, Ms Murdoch and Dr Streltsova (Chair)). All Committee members including the Chair are considered by the Board to be independent directors. Whilst every effort is made by Directors to weigh up material business risks against potential rewards in their decision making process, the Board acknowledges that no process can guarantee elimination of potential material loss. The Company has a Risk Management Policy, which is available on the Company's website.

B70. The Risk & Sustainability Committee has a charter which can be found on the Company's website. The number of meetings of the Committee and individual member attendances is disclosed in the Annual Report each year and at paragraph B29 of this report

Risk Assessment and Management

B71. The Board recognises that there are inherent risks associated with the Company's operations including mineral exploration and mining, environmental, title and native title, legal and other operational risks. Ramelius does not have an internal audit function (although during the year the Board approved an Internal Audit Charter for Ramelius and developed an internal audit program to commence in the 2023 financial year); however, the Board endeavours to mitigate such risks by continually reviewing the activities of the Company in order to identify key business and operational risks and ensuring that they are appropriately assessed and managed. For specific risks identified by the Company, the Board or relevant Committee may direct particular responsibility for addressing such risks (for example, the procurement of gold room audits). The Board of Directors believe that consistent with the operations of the Company, its key stakeholders, principally shareholders, are willing to accept a higher level of risk than may otherwise be expected with other listed companies in return for higher potential rewards. Nevertheless, the Directors consider that there is value in formalising a process for monitoring material business risks in order to assist it with its overall responsibility for mitigating such risks. The Board considers its risk appetite (at least annually) and any potential emerging risks at its meetings, and the Audit Committee and Risk & Sustainability Committee have processes whereby it can appoint a relevant person to review and report on any risk management and internal control area of concern.

B72. The Board has approved policies, the contents of which assist with risk mitigation, oversight and management.

The Risk & Sustainability Committee's responsibilities include:

- Overseeing establishment, maintenance and reviewing the effectiveness of the Company's risk and internal control framework and ensuring efficacy and efficiency of operations, reliability of reporting and compliance with applicable Health and Safety and ESG objectives, legislation and ASX Listing Rules;
- Reviewing, assessing and making recommendations to the Board on the Company's risk management (the 'Ramelius Essentials' and including risk appetite), business continuity and ESG programs;
- Reviewing the effectiveness of the Company's risk management process and internal compliance systems, including its risk management registers;
- Approving and monitoring appropriate policies, procedures, codes of conduct, health and safety, sustainability and ethical standards for directors and employees and receiving and assessing management reports on any deficiencies or weaknesses that may arise;

Ramelius Resources Limited

Corporate Governance Statement

- Liaising and discussing any relevant issues with the Chief Executive Officer;
- Liaising with and reviewing all reports provided by relevant external advisors;
- Reviewing and monitoring management's response to any significant external advisor findings and recommendations;
- Reporting generally to the Board on the activities of the Committee and making any necessary recommendations relating to areas of improvement;
- Reviewing the contents of statements to be included in the annual report including the activities of the Committee;
- Ensuring effective communication and reporting of the role of the Committee to shareholders, community members and other key stakeholders of the Company; and
- Reviewing and assessing annually the performance of the Committee and the adequacy of its charter

The Committee meets at least two times per annum and reports to the Board. The Managing Director/CEO management and external advisors may by invitation attend meetings at the discretion of the Committee. The number of meetings of the Committee and individual member attendances is disclosed in the Annual Report each year and at paragraph 29 of this report.

B73. Ramelius undertakes mineral exploration and production and is exposed to material risks which may impact on the Company's continued performance as follows:

- Economic sustainability risks including liquidity, credit, interest rate, capital maintenance, foreign currency and commodity price market risks. Further information of these economic risks and how Ramelius manages such exposures are detailed in the Financial Report section of the Annual Report.
- Environmental sustainability risks including biodiversity, waste management, pollution, water and land rehabilitation risks.
- Social sustainability risks including workforce diversity, talent and engagement, occupational health and safety, native title and the Company's reputation in the general community.

B74. The Company's sustainability report (which details how Ramelius deals with ESG issues, including climate and modern slavery risk) is included in its Annual Report and available separately on its webpage.

Principle 8 – Remunerate fairly and responsibly

Nomination & Remuneration Committee

B75. The Board has a Nomination & Remuneration Committee which oversees executive performance, remuneration, recruitment, retention and termination policies for senior management and incentive schemes.

B76. The Nomination & Remuneration Committee has a charter and was comprised of 3 members all of which were non-executive directors and considered by the Board to be independent. Until 31 May 2022, the Committee comprised Messrs Vassie, Southam and Bohm (Chair). From 1 June 2022 the Committee comprised Messrs Vassie and Southam and Ms Murdoch (Chair). The Chair of the Committee is separate from the Chair of the Board. Further details relating to the responsibilities of the Nomination and Remuneration Committee, its charter, members and other information are disclosed under Principle 2 above at B23-B27.

Remuneration Policy and Practices

B77. The Company's policy for determining the nature and amounts of emoluments of Board members and key management personnel/senior executives of the Company is as follows.

B78. The Company's Constitution specifies that the total amount of remuneration of non-executive directors shall be fixed from time to time by a general meeting. The current maximum aggregate remuneration of non-executive directors has been set at \$1,000,000 per annum. Directors may apportion any amount up to this maximum amount amongst the non-executive directors as they determine. Directors are also entitled to be paid reasonable travelling, accommodation and other expenses incurred in performing their duties as directors. The remuneration of the Managing Director/CEO is determined by the non-executive directors on the Nomination & Remuneration Committee and approved by the Board as part of the terms and conditions of his employment which are subject to review from time to time. The remuneration of other executive officers and employees is determined by the Managing Director/CEO subject to the review of the Nomination & Remuneration Committee and approval of the Board.

Ramelius Resources Limited

Corporate Governance Statement

- B79. Non-executive director remuneration is by way of fees and statutory superannuation contributions. Non-executive directors do not participate in schemes designed for remuneration of executives nor do they receive options or bonus payments and are not provided with retirement benefits other than salary sacrifice and statutory superannuation.
- B80. The Company's remuneration framework is based on a number of factors including the particular experience and performance of the individual in meeting key objectives of the Company. The Nomination & Remuneration Committee was established to assist the Board by overseeing remuneration policies and make recommendations to the Board. The Nomination & Remuneration Committee is responsible for assessing relevant employment market conditions and achieving the overall, long term objective of maximising shareholder benefits, through the retention of high quality personnel. The Company may also engage external consultants to advise on remuneration policy and to benchmark remuneration of senior executives against comparable entities so as to ensure that remuneration packages are consistent with the market and are appropriate for the organisation.
- B81. The Company remunerates its key management personnel/senior executives with a total reward package that consists of two components: total fixed remuneration and total variable remuneration. Total fixed remuneration comprises of base salary, superannuation and other fixed executive benefits (such as salary sacrifice). Total variable remuneration comprises of short term incentives (**STI**) and long-term incentives (**LTI**). To ensure that key management personnel/senior executive remuneration is aligned to company performance, where appropriate, a portion of selected senior executives' target pay is "at risk". All key management personnel/senior executives receive a base salary based on factors such as experience, length of service, superannuation and performance incentives. Performance incentives are generally paid once predetermined key performance indicators (**KPI**) have been met. Key management personnel/senior executives receive superannuation contributions; however, do not receive any other form of retirement benefits. Individuals may elect to salary sacrifice part of their salary to increase payments towards superannuation. On retirement, key management personnel/senior executives are paid employee benefit entitlements accrued to the date of retirement. The STI plan is designed to encourage the achievement of specific goals given prominence by the Board for the growth and profitability of the Company.
- B82. Remuneration details including LTI and any STI cash bonuses paid during a financial year are disclosed in the Remuneration Report section of the Annual Report.
- B83. All remuneration paid to key management personnel/senior executives is valued at the cost to the Company and expensed.

Employee Incentive Plan

- B84. On 29 September 2022, the Board approved certain changes to the Company's existing Performance Rights Plan to provide for, among other things, the ability for the Company to issue both Performance Rights and Service Rights (collectively **Incentive Rights**) and to rename the Performance Rights Plan the **Performance Plan**.
- B85. The Performance Plan is the Company's long-term incentive scheme for any person who is declared by the Board to be eligible to receive grants of Incentive Rights. Under the Performance Plan, eligible persons may be granted Incentive Rights (each being an entitlement to a Share, subject to the satisfaction of prescribed vesting conditions, unless the Board resolves that the Incentive Right will be settled by way of cash payment to the participant) on terms and conditions determined by the Board. If the vesting conditions are satisfied, the Incentive Rights vest and upon exercise of the Incentive Rights, the Company must issue to or procure the transfer to the participant or his or her personal representative (as the case may be) the number of Shares in respect of which vested Incentive Rights have been exercised. Subject to certain limited exceptions, until such time as Incentive Rights vest and are exercised, they cannot be transferred, encumbered or otherwise dealt with. In the event of fraud, dishonesty, gross misconduct or a material misstatement of the financial statements, the Board may make a determination that could include cancelling unvested incentive rights and the forfeiture of shares allocated on vesting of incentive rights that are at the relevant time unexercised.
- B86. Details of share-based compensation to key management personnel/senior executives are disclosed in the Remuneration Report section of the Annual Report.

Performance Based Remuneration

- B87. Key management personnel/senior executives may receive performance-based remuneration as considered appropriate by the Nomination & Remuneration Committee and approved by the Board. The intention of this remuneration is to facilitate goal congruence between key management personnel/senior executives with that of the business and shareholders.

Ramelius Resources Limited

Corporate Governance Statement

- B88. On 30 June 2016, the Board approved a Performance Rights Plan, which was subsequently approved by shareholders (most recently at the Company's 2019 Annual General Meeting). On 29 September 2022, the Board approved certain changes to the Company's to the Performance Rights Plan (such changes to be submitted for approval by shareholders at the Company's 2022 Annual General Meeting). Under the plan (current and proposed), the number of performance rights (**Performance Rights**) granted to senior executives ranges up to 40% (100% for the Managing Director) of the executive's total fixed remuneration and is dependent upon each individual's skills, responsibilities and ability to influence financial or other key objectives of Ramelius. The number of Performance Rights granted is calculated by dividing the total fixed remuneration dollar amount by the volume weighted average price of Ramelius shares traded on the Australian Securities Exchange during the 5 trading day period prior to the date of the grant. Vesting and measurement period for Performance Rights is set over three years with vesting and measurement of the granted rights occurring at the end of that three-year period. Performance Rights are subject to vesting conditions related to achievement of total shareholder returns (**TSR**) and if the Company's TSR over the measurement period is greater than 15% compounded annual growth. TSR performance is measured against the total shareholder return of a benchmark peer group.
- B89. Any Performance Rights that do not vest on the vesting date will lapse. The Performance Rights may be subject to performance conditions which are to be tested in future financial periods. Details of any share-based compensation to key management personnel/senior executives are disclosed in the Remuneration Report section of the Annual Report.
- B90. The employment conditions of Executive Directors including the CEO and key management personnel/senior executives are formalised in contracts of employment. The contracts have no fixed term with specific terms not greater than 12 months' notice of termination by the executive and Company. Generally, employment contracts of senior executives enable the Company to terminate the contracts without cause by providing written notice or making a termination payment in lieu of notice including a minimum termination payment as provided for under the contracts. However any such termination payments to officers of the Company are subject to the requirements of ASX Listing Rule 10.19, and in the event that the value of termination benefits to be paid and the value of all other termination benefits that are or may be payable to all officers of the Company together exceed 5% of the equity interests of the Company as set out in the latest accounts given to the ASX, the payment shall be pro-rata based on the maximum total termination benefits allowable under ASX Listing Rule 10.19. Termination payments are not generally payable on resignation or dismissal for serious misconduct. Any Performance Rights or options not vested or exercised before the date of termination will lapse.
- B91. Details of directors' and key management personnel/senior executive remuneration, superannuation and retirement payments are set out in the Remuneration Report section of the Annual Report.

Products limiting risk

- B92. The Company has a policy that Directors, officers and employees must not use derivatives and hedge contracts which limit the economic risk of unvested securities of the Company.
