Recommended Takeover Offer for Musgrave Minerals Ltd

QUALIFICATION

Forward Looking Statements

This presentation contains certain forward looking statements with respect to Ramelius Resources Ltd's (Ramelius) financial condition, results of operations, production targets and other matters that are subject to various risks and uncertainties. Actual results, performance or achievements could be significantly different from those expressed in or implied by those forward looking statements. Such forward looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors that are beyond the control of Ramelius that may cause actual results to differ materially from those expressed in the forward looking statements contained herein. Ramelius gives no warranties in relation to the information and statements within this presentation.

Competent Person Statement - Mineral Resources - Musgrave Minerals Limited

The information in this presentation that relates to Mineral Resources for the Break of Day, Lena, White Heat-Mosaic, Big Sky, Numbers, Leviticus, Jasper Queen, Gilt Edge, Rapier South and the Hollandaire Gold Cap deposits is based on information compiled by Mr Paul Payne, a Competent Person who is a Fellow of the Australasian Institute of Mining and Metallurgy. Mr Payne is a full-time employee of Payne Geological Services. Mr Payne has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Payne consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears.

The information in this presentation that relates to Mineral Resources for the Hollandaire Copper-Gold deposit is an accurate representation of the available data and is based on information compiled by external consultants and Mr Peter van Luyt a competent person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" who is a member of the Australian Institute of Geoscientists (2582). Mr van Luyt is the Chief Geologist of Cyprium Metals Limited. Mr van Luyt has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and the activity which he is undertaking to qualify as a Competent Person (CP). Mr van Luyt consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears. Musgrave confirms that it is not aware of any new information or data that materially affects the information included in the previous announcement of these Mineral Resources estimates and that all material assumptions and technical parameters underpinning the Mineral Resources estimates in the previous announcements continue to apply and have not materially changed.

Competent Person Statement – Exploration - Musgrave Minerals Limited

The information in this presentation that relates to Exploration Results is based on information compiled and/or thoroughly reviewed by Mr Robert Waugh, a Competent Person who is a Fellow of the Australasian Institute of Mining and Metallurgy (AusIMM) and a Member of the Australian Institute of Geoscientists (AIG). Mr Waugh is Managing Director and a full-time employee of Musgrave Minerals Ltd. Mr Waugh has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Waugh consents to the inclusion in the presentation of the matters based on his information in the form and context in which it appears.

Competent Person Statement – Ramelius Resources Limited

The Information in this presentation that relates to Mineral Resources and Ore Reserves is based on information compiled by Jake Ball (Mineral Resources) and Paul Hucker (Ore Reserves), who are Competent Persons and Members of The Australasian Institute of Mining and Metallurgy. Jake Ball and Paul Hucker have sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Mineral Resources and Ore Reserves". Jake Ball and Paul Hucker consent to the inclusion in this report of the matters based on their information in the form and context in which it appears. Jake Ball and Paul Hucker are employees of the company. The Company confirms that it is not aware of any new information or data that materially affects the information included in this presentation and that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed.

ACQUISITION ON STRATEGY

OUR MISSION

To be a sustainable GOLD PRODUCER that focuses on delivering

SUPERIOR RETURNS

for stakeholders

OUR VALUES

- We Empower our people
- We achieve Fit-for-Purpose outcomes
- We **Deliver** and do it safely
- We are Authentic

RAMELIUS OFFER TO ACQUIRE MUSGRAVE MINERALS LTD

- Ramelius to acquire Musgrave Minerals Ltd (ASX:MGV), owner of the Cue Gold Project (Cue Project) in Western Australia, via recommended scrip and cash off-market takeover offer (Offer)
- Musgrave shareholders to receive implied Offer price of \$0.34¹ (Offer Price) equating to 1 Ramelius share for every 4.21 Musgrave shares held plus an additional \$0.04 in cash per Musgrave share held
- Musgrave Directors unanimously recommend Musgrave shareholders accept the Offer, in the absence of a superior proposal
- Pre-bid agreements² with Directors & Major shareholder representing a total of 12.13% of Musgrave shares
- The Cue Gold Project has a JORC Mineral Resources of 12.3 Mt @ 2.3g/t Au for 927koz³
- Ramelius has the financial capacity and operational expertise to realise synergies between the Cue Project and its Mt Magnet gold operations

¹ Based on the Ramelius 1-day VWAP up to and including 30 June 2023 of \$1.263. The implied value of the Offer will change with fluctuations in the Ramelius share price

² Pre-bids require acceptance within 5 days of the Offer opening, in each case in the absence of a superior proposal

³ See MGV ASX Release "Cue Mineral Resource Increases to 927,000 ounces", 31 May 2022

KEY OFFER DETAILS

Structure and Status of the Offer

- Ramelius and Musgrave have entered into a Bid Implementation Agreement, pursuant to which Ramelius will offer to acquire all the issued ordinary shares in Musgrave, by way of a scrip and cash off-market takeover offer
- Offer unanimously recommended by Musgrave Board of Directors who have signed pre-bids to accept the offer in respect of shares they own or control (2.43%), in the absence of a superior proposal
- Major shareholder representing 9.70% of Musgrave shares has signed a pre-bid agreement to accept the Offer, in the absence of a superior proposal

Offer consideration

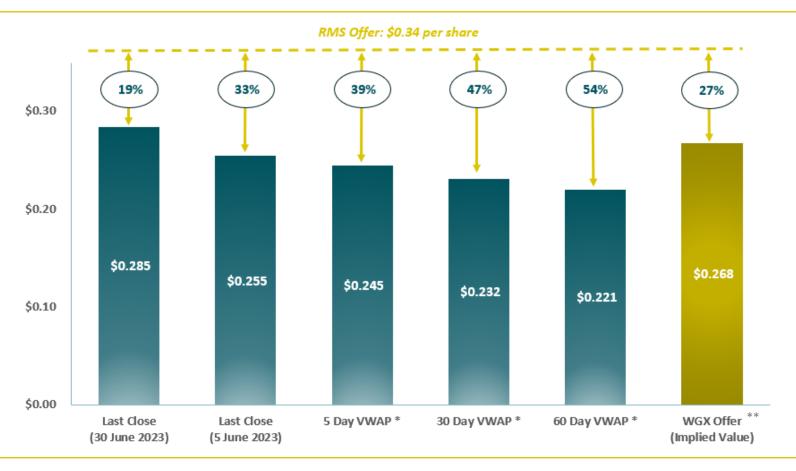

- Implied offer price of \$0.341 per Musgrave share
- 1 Ramelius share for every 4.21 Musgrave shares held plus \$0.04 in cash per Musgrave share held
- Implied value of Musgrave equity of \$201 million²

Offer conditions

- Offer NOT subject to further due diligence and only subject to limited conditions³, including:
 - 50.1% minimum acceptance threshold,
 - No material changes or prescribed occurrences,
 - No adverse regulatory events affecting the Offer or Musgrave or its assets, and
 - Other customary conditions for a transaction of this type

ATTRACTIVE OFFER PREMIUMS

^{*} Volume weighted average Price (VWAP) up to and including 5 June 2023, the last trading day prior to the announcement of the WGX offer

^{**} Based on WGX closing price of \$1.44 per share on 30 June 2023

BENEFITS TO MUSGRAVE SHAREHOLDERS

- Highly attractive premiums and synergies with Mt Magnet
- The Offer Price represents a premium to recent trading in Musgrave shares and provides Musgrave shareholders with an attractive mix of both cash and shares in Ramelius
- A combination of the Cue Project with Ramelius' Mt Magnet gold operation will enable Musgrave shareholders to benefit from lower capital requirements to develop the Cue Project and lower ongoing processing costs
- Ramelius' operational and funding capabilities
- Ramelius has the operational experience and exploration expertise to integrate the Cue Project into its Mt Magnet operational hub and ultimately develop the Project to maximise value for all stakeholders
- Musgrave shareholders can benefit from Ramelius' strong financial position of \$272M¹ in cash and gold and no drawn debt², with two existing cash generating operations, including the low-cost Penny mine
- Significant reduction in development & execution risk
- Ramelius' development experience and established workforce reduces the risks faced by Musgrave shareholders on labour shortages, inflationary pressures and establishing a team with the required skills to execute
- Ramelius has a proven track record of developing mines with capital prudence and operational excellence
- Opportunity to become a shareholder in Ramelius, a larger, more liquid vehicle
- Musgrave shareholders who retain Ramelius shares become shareholders in a profitable, financially strong Australian gold producer, with established operations, a proven team and track record of shareholder returns
- Musgrave shareholders benefit from deeper trading liquidity, enhanced scale and market positioning
- Ramelius has a current market capitalisation of approximately \$1.25 billion with average trading volume of approximately 8.7 million shares per day on the ASX over the past month

CGT rollover relief

• Provided Ramelius acquires at least 80% of Musgrave's ordinary shares under the Offer, capital gains tax rollover relief will be available to eligible Musgrave shareholders for the scrip portion of the offer

STRATEGIC RATIONALE FOR RAMELIUS

- Increased scale at Mt Magnet and production optimisation
- Addition of skilled personnel with a track record of discovery

Exploration upside in the prolific Murchison Gold Province

Adds further to an already strong balance sheet

- The combination of the high-grade Cue Project into the Mt Magnet production centre provides opportunities to enhance the combined production profile by optimising the blend of ores and sequence of mining at the combined operation
- Increased scale at Mt Magnet with the addition of the Cue Project's 0.93 Moz¹ to the existing Mineral Resource of 3.2Moz²
- The Musgrave team have done an excellent job in exploring the Cue Project and the acquisition of Musgrave provides an opportunity to add highly skilled personnel with a track record of discovery in the Murchison Gold Province, in a tight labour market
- Ramelius has the financial capacity to fund future exploration activity around the Cue Project and broader Musgrave tenement package, including the Mount Magnet South tenements
- The Cue tenements have potential for further exploration success at prospects like Amarillo and Waratah plus East Numbers which hosts a gold anomalism in regolith with a strike of 1.3km
- The combination of the two balance sheets provides additional funding for the potential development of the Cue Project
- The Cue Project will enhance the current production centre of Mt Magnet and help the company leverage into production growth in the future

¹ See MGV ASX Release "Cue Mineral Resource increases to 927,000 ounces", 31 May 2022

² See RMS ASX Release "Resources and Reserves Statement 2022", 13 September 2022

CUE GOLD PROJECT - OVERVIEW

Tier 1 location

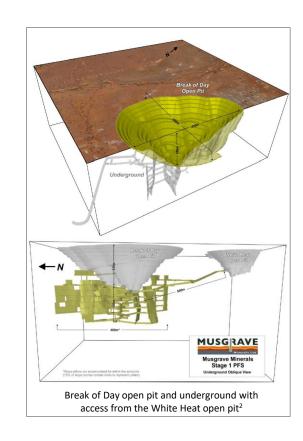

- 40km north of the town of Mt Magnet in WA
- 5km from the Great Northern Highway
- Prime location within the Murchison Goldfield

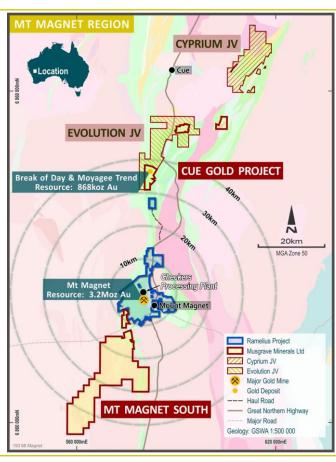

Cue Gold Project Mineral Resources¹

- Totals 12.3Mt @ 2.3g/t Au for 927koz
- Includes the Break of Day High-Grade Trend
 982kt @10.4g/t Au for 327koz contained gold
- And the Moyagee Western Trend with 9.8Mt @
 1.7g/t for 541koz contained gold

Stage 1 PFS completed²

- Gold Production 337,000 ounces
- Initial LOM of 5 years
- 6 open pits & 1 underground
- High margin, fast payback

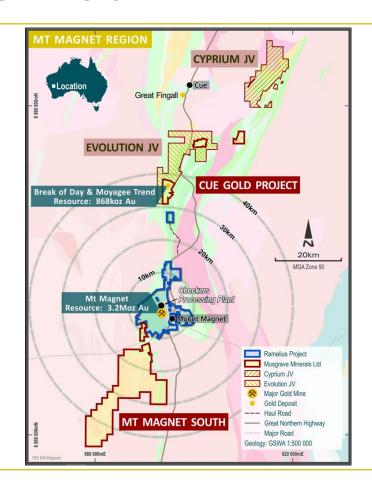

² See MGV ASX Release "Stage 1 PFS demonstrates potential value of Cue Gold Project", 17 April 2023

CUE GOLD PROJECT - SYNERGIES WITH MT MAGNET GOLD OPERATIONS

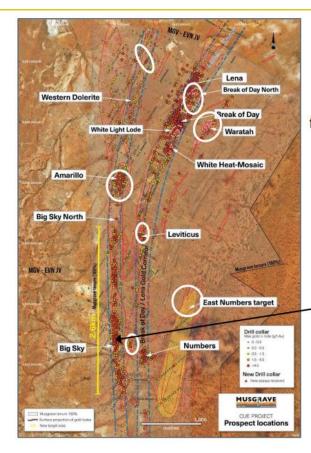

- Significantly reduced development capital and funding risk
- Larger processing plant reduces operating costs
- Non processing infrastructure already in place at Mt Magnet
- Lower G&A costs as will operate under shared services at the Mt Magnet operations
- Combine exploration and development capabilities, particularly at the Mt Magnet South tenure
- Complimentary open pits and underground allows for optimisation through production scheduling

CUE GOLD PROJECT - EXPLORATION POTENTIAL

- Murchison Province in the north-western part of the Archean Yilgarn Craton
- Greenstone sequence dominated by
 - Cuddingwarra Shear Zone which extends from Mt Magnet to Meekatharra
 - Break of Day Shear which is a splay off the Cuddingwarra Shear Zone
- Mineral Resource pipeline prospects¹
 - Amarillo pre-Resource
 - **11m @ 8.4g/t Au** from 66m (21MUAC103)
 - 7m @ 23.7g/t Au from 102m (22MORC060)
 - Waratah pre-Resource
 - 400m east of Break of Day
 - 4m @ 29.9g/t Au (22MORC228)
 - East Numbers new zone
 - >1.3km strike gold anomalism in regolith

High-Grade Zones within existing deposits e.g. Big Sky

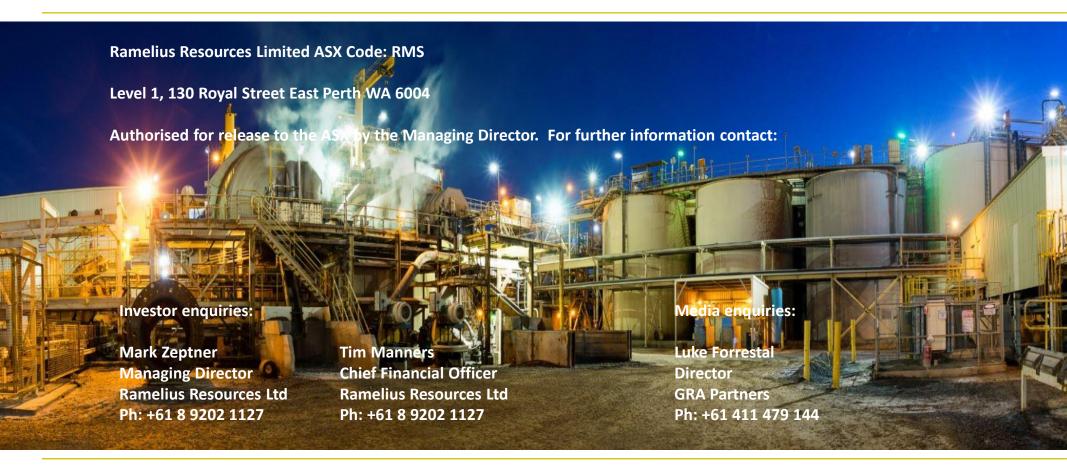

Gold nuggets and gold in quartz from RC sample 49-50m down hole in 21MORC277. Interval assayed 1m @ 898g/t Au from 49-50m.*

*MGV- ASX release dated 27 October 2021

THANK YOU
