

MEET JULIE

Senior Accounts Payable Officer

“My favourite thing about working for Ramelius is everyone, absolutely EVERYONE is my favourite thing. I have worked in some great companies with good people but somehow Ramelius is hands down the best company I have worked for.”

What is your name and position within the Company?

My name is Julie Collins. I am the Senior Accounts Payable Officer, and I work at the Ramelius head office.

What are you most proud of in working for Ramelius?

I am very proud of the achievements I have managed to fulfil within the 3 years and 3 months I have been with Ramelius. There's been many changes with processes within the daily running of AP from end to end. I liaise with internal and external stakeholders every day, all day in some way or another and I think it is well received. I am also very proud to actually say to friends and family that I work for Ramelius Resources.

Having not come from a background in the mining industry, how did you find the transition into the industry and did you face any significant challenges?

I have a range of different industries that I have worked in over the years. My recent background was Marine and before that, building and construction. The transition was not difficult at all because accounts is accounts no matter where you go. The fundamentals are the same. It is only company processes you need to learn.

What is something you feel the Finance department at Ramelius do really well together as a team?

This particular finance team for me, personally, are a wonderful group of people. There has been some staff changes recently and even with this, the team still communicate with one another on a work level really well and for us in AP, we are not kept in the dark when changes occur. If I am ever kept in the dark and I find out, there is trouble, so maybe that's why!

What does a typical day in the office look like for you?

It is a very busy little department, so a typical day is mostly fingers to the bone, however, we always manage a few laughs, even when we drown. Each morning I am usually the second person in the office, so we start the day with some music and a sing along with the Health & Safety girls.

What's your favourite thing about working for Ramelius?

Everyone, absolutely EVERYONE is my favourite thing. I have worked in some great companies with good people but somehow Ramelius is hands down the best company I have worked for. The culture is awesome and I have good healthy relationships with many people, here in the Perth office and on site. Drinking BEER on a Friday after work is right up there too.

Do you have an interesting or funny story you can share from work?

I wish I could share all my funny stories, but I'm not too sure they are appropriate LOL. Seriously though, it's so good that I can banter with the bosses (all of them) and still have a job to come to each week. Oh, and don't forget all the people I scare by hiding behind doors or peering over their computers 'Hey Mikayla'.

Off the Record

What gets you out of bed in the morning?

My alarm.

What are you reading or watching on Netflix right now?

I don't do much reading these days and don't watch Netflix. I like to play games on my iPad in the evenings.

What are you passionate about when you're not at work?

My passion is animals, I just adore animals. Walking my dog, visiting friends and family. Also going out for breakfast and/or dinner with my hubby.
