Principal activities

The Consolidated Entity's principal activity is gold and other mineral exploration and production.

Review and results of operations

During the half-year the Consolidated Entity continued with mining activities at the Wattle Dam underground gold mine. This included stoping activities within the A and B blocks of the underground mine.

The Consolidated Entity also continued deep exploration drilling below the current mine. An extension to the Wattle Dam decline was also commenced during the reporting period to allow for deeper underground exploratory drilling targeting high grade mineralisation 300 to 600 metres below surface.

On 20 July 2010, the Company acquired 100% of the issued capital of Mt Magnet Gold NL for a total cash consideration of \$35,346,500 plus replacement environmental bonds of \$4,653,500 via bank guarantees.

Since acquiring Mt Magnet Gold NL, the company embarked on a strategy to confirm the feasibility work completed by Harmony Gold (Australia) Pty Ltd on the Mt Magnet gold project, review all capital and operating costs, and to add value to the project by drilling the numerous exploration targets identified in the immediate vicinity of the Galaxy area. Once the feasibility study is completed, the Board of Directors may proceed with the project and seek approval from the relevant government authorities. Preparations were commenced for a new accommodation camp and refurbishment of the treatment plant. In respect of the new accommodation camp, a letter of intent was signed in December 2010 so that design, procurement of materials and mobilisation of resources could proceed in January 2011 and a formal contract entered into.

In August 2010 the Consolidated Entity entered into a farm-in agreement with Miranda Gold Corporation to earn a 70% interest in the Angel Wing Gold Project in Nevada USA by exploration expenditure of US\$4 million over 5 years with a minimum expenditure commitment of US\$350,000 before it may withdraw. Under an alliance with Marmota Energy Limited, Marmota may participate and earn a 40% interest in Ramelius' rights under the farm-in agreement.

Gold sales for the half-year to 31 December 2010 totalled \$83,664,965 compared to \$20,611,672 recorded in the 31 December 2009 half-year. The average gold sales price received during the reporting period was \$1387.48 per ounce compared to \$1,249.42 per ounce in the 31 December 2009 half-year.

Mr Ian Gordon who previously held the position of Chief Executive Officer was appointed Managing Director on 22 October 2010.

Sales Revenue from toll treated third party ore was \$262,925 for the half-year to 31 December 2010 compared to \$2,223,676 for the same period last year. The decrease was attributable to a substantial increase in the quantity of ore treated from the Wattle Dam gold mine instead of external third party ore.

On 20 August 2010 the Company paid a return of capital of 5 cents per share to all registered shareholders at the record date of 6 August 2010 totalling \$14,567,264.

Directors' report (continued)

On 17 December 2010 the Company paid a special dividend of 2 cents per share to all registered shareholders at the record date of 10 December 2010 totalling \$5,828,356.

A total of 72,520 shares were issued during the reporting period pursuant to the Company's Employee Share Acquisition Plan.

Net Profit after income tax for the half-year was \$32,299,606.

Events subsequent to balance date

There has not arisen in the interval between 31 December 2010 and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the Consolidated Entity, in future years.

Likely developments

Further information about likely developments in the operations of the Company and the expected results of those operations in future years have not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Company.
